Koppern Maco Services Pvt. Ltd. - February 25th, 2014

Malay Bhattacharjee,
Executive Director,
Koppern Maco Services
Pvt. Ltd.

What motivated Koppern Maco Services to join ICDA?

"Koppern Maco Services Pvt Ltd (KMS) is a JV company of Maschinenfabrik Köppern & Co. KG of Germany, specialized in chrome briquetting plant and process. Majority of the Indian Ferrochrome manufacturers are dependent on chrome briquettes for their furnace charge. In this process KMS has evolved into a complete solution provider for Chrome Briquetting application with major producers like Jindal Stainless, Rohit Ferrotech, Tata Steel KZN Pty, South Africa and Altamman Indsil in Oman. Having expanded our process and plant expertise beyond the Indian border, we are keen to develop this market further in India and abroad. ICDA provides us an excellent platform for interaction and access to all Ferrochrome majors around the world. This is the real motivation for joining ICDA."

What do you expect from your ICDA Membership?

"Informations on market, development of technologies, global demand of Stainless Steel vis a vis Ferrochrome, upcoming capacities around the world, opportunities for Koppern."

Brief introduction of Koppern Maco Services:

We introduce ourselves as the Indian subsidiary of M/s. Maschinenfabrik Koppern GmbH & Co. KG (Köppern), Germany, who is the world leader in the field of Roller Press Technology for Briquetting, Compacting and Comminution. Köppern has supplied over 1000 presses for different applications, all over the world. Koppern Maco Services Pvt. Ltd. was incorporated in the year 1997. Köppern India has a team of 20 project and service engineers who are extensively trained at our Germany HO in installation, commissioning and trouble shooting of all Köppern supplied equipments. Their service is extended not only in India but in neighboring countries as well like Middle East, Korea, Sri Lanka, Malaysia, Saudi Arabia, Oman, Qatar, Iran Japan, Libya etc. This entire team backed up by experienced project management and electrical, automation group is able to add great after-sales value to our customers as and when required in very short notice. We have also started our own manufacturing and service set up since 2010 where production of Briquetting Presses is done. In addition we are also producing and servicing pressing tools (segments) for Briquetting Presses for Chrome Briquetting and Hot Briquetting of DRI.
